Q1.

Using HTML, CSS and Bootstrap create the design that is displayed in below figure.

The screenshot shows a web application interface with a navigation bar at the top containing 'HTML/CSS', 'JQUERY', 'JAVA SCRIPT', and 'AJAX'. Below the navigation bar is a deal card for 'ABC Manufacturing Businesses Pvt Ltd'. The card features a blue callout box on the left that says 'INVOICE RAISED FOR AND RECOURSE ON'. To the right of the callout is the company logo 'ZETWERK' and the company name 'ABC Manufacturing Businesses Pvt Ltd' with a sub-note '(VC funding of ~\$373.7 M , Brokerage reduced by 33%)'. A 'Deal Details' button is located to the right of the company name. Below this, the card displays 'Invoice Raised by Vendor ID : COL4XP9ZGMK3 | Gurgaon' and 'Deal Value : ₹ 1,26,11,635'. A progress bar shows '37% Funded' with a value of ₹ 0 on the left and ₹ 1.26 Crores on the right. Below the progress bar are three buttons: '₹ 5 Lacs', '₹ 8 Lacs', and 'Max'. To the right of these buttons is a text input field with '₹ 0' and a dropdown arrow, with a note 'Min: ₹ 3 Lacs Max: ₹ 79.93 Lacs'. On the left side of the card, there are three metrics: 'EXP. GROSS YIELD 12.5 %', 'TENURE 87 Days', and 'XScore V2.0 763'. A 'Buy Now' button is located at the bottom right of the card.

Q2.

Using Jquery -validation library integrate validation functionality on the Form displayed in the below Figure. Parameters for validation are as follow:

- 1- Name - Name should be required.
- 2- Age- Age should be equal to or greater than 18 years but not above 60 years.

3- PAN number - PAN Format Validation.

4- Email- Email format Validation.

The image shows a browser window with a tabbed interface. The tabs are labeled 'HTML/CSS', 'JQUERY', 'JAVA SCRIPT', and 'AJAX'. The 'JQUERY' tab is active. Below the tabs is a form with four input fields and a submit button. The labels for the input fields are 'Name:', 'Age:', 'PAN No.:', and 'Email:'. Each input field contains a vertical cursor. The submit button is red and labeled 'Submit'.

Q3.

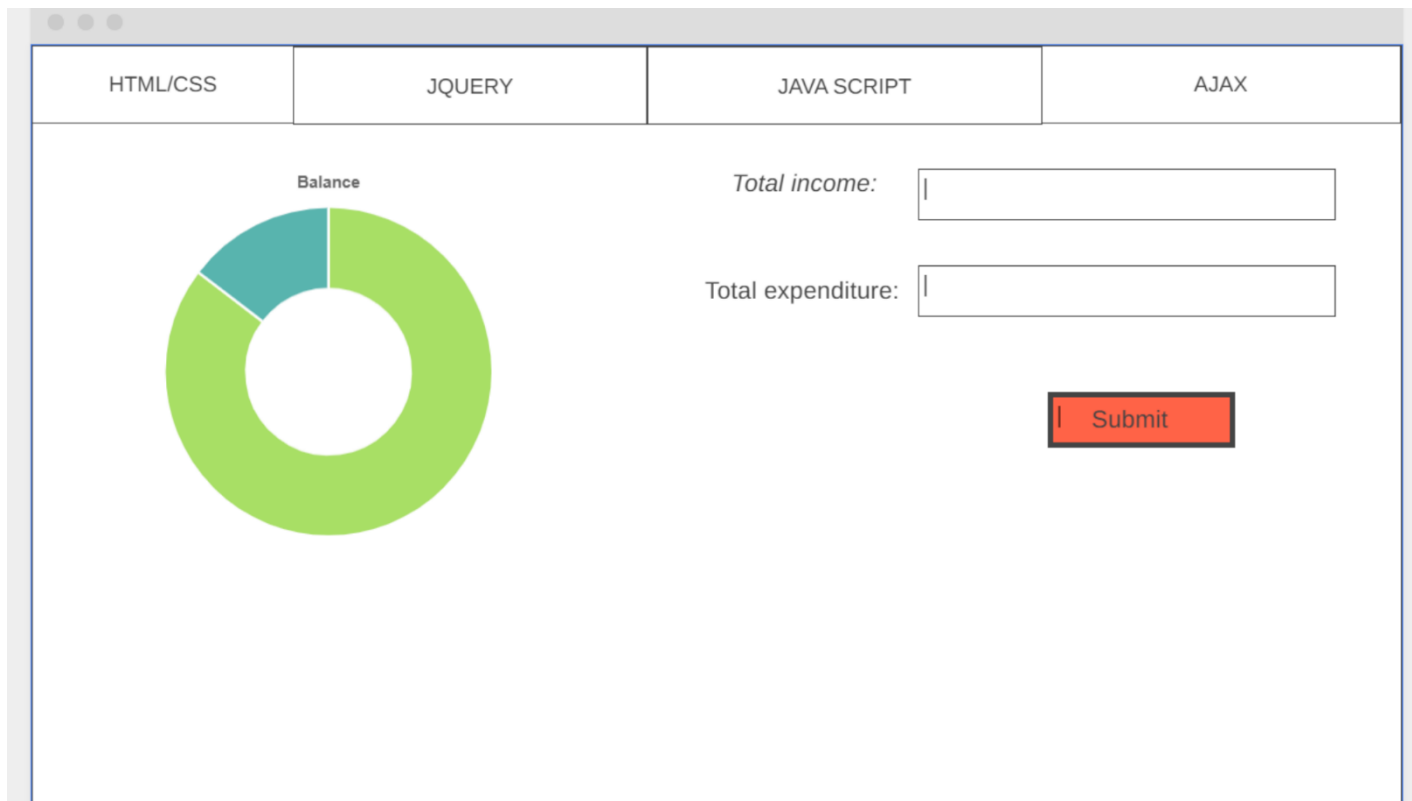

Take 2-inputs from the user

1 – Total Income

2- Total Expenditure

Using java -script after tab-out, create a Doughnut-chart differentiating both values by using different colors. While hovering over a particular section appropriate values must be displayed.

(Please design a content as displayed below)

Notes - Using required technologies as mentioned in the questions please create appropriate design and Functionalities.

Make a zip file of your code and send it to techteam@mcred.com
